Wastewater membrane cleaner and other water treatment chemicals.

Neutro water tech is a complete water and wastewater management company with the strong knowledge of Water and wastewater treatment system and water treatment chemicals.

NWT understands the client requirement and makes engineering excellence in end-to-end engineering solutions and services.

The highly experienced design, engineering and technical team at Neutro Water Tech excels in their area of specialization providing comprehensive solutions for the client in anticipation of client requirement and attention to detail.

Aluminum Chloride

Anti-foam

Anti-scalant

Bio Nutrient

CaO (Lime) Fine powder

Caustic soda flakes

Chlorine granules

Chlorine Tablet

Citric acid

COD Reducer

Coolant Treatment chemicals

Corrosion Inhibitor

Ethylene Diamine Tetra-acetic Acid (EDTA)

Ferric Chloride

Hydrochloric acid (HCL)

Hydrogen Peroxide

pH booster

Poly Aluminum Chloride (PAC)

Poly electrolyte

RO membrane cleaner

Smell controller

Sodium Di-chloro Isocyanurate (SDIC)

Sodium Lauryl Sulphate (SLS)

Sodium hypo chloride

Sulphuric Acid (H₂SO₄)

Trichloro Isocyanuric Acid (TCCA)

Neutro Water Tech

EFFLUENT TREATMENT PLANT

SEWAGE TREATMENT PLANT

GREY WATER TREATMENT PLANT

REVERSE OSMOSIS PLANT

CAR WASH PLANT

NANO FILTRATION SYSTEM

ULTRA FILTRATION SYSTEM

FILTERS AND SOFTENER PLANTS

DEMINERALISATION PLANT

EVAPORATOR

ENVIRONMENTAL AUDITING AND ASSESMENT REPORTS

AIR POLLUTION CONTROL EQUIPMENT

WATER TREATMENT CHEMICAL

SPARES, COMPONENTS AND COSULTANCY

Water & Waste water Management Company

Neutro Water Tech

Protect your water from pollutions and all type of hazards

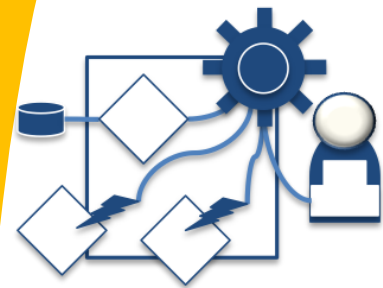

Our Vision:

To be the most admired Water and wastewater management service provider with proficient engineering solutions and interactive service performing which creates better friendly relationship with Clientele.

Our mission:

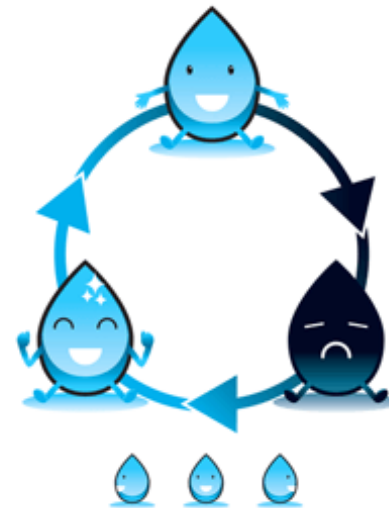

Enabling Organization and people to become self-sufficient of their water requirement by offering an effective solution on total water management.

Our Motto is Teamwork

WORK DISCIPLINE

Neutro Water Tech discipline understands the seriousness and reality of the projects and makes detail study of the project design and planning as per time management, procurement aids in design MTO and project deliverable documents will be as per project plan. We extremely give importance for quality design, standards, safety of the plant, and safety of the human resources and reliability of facilities.

ADVANCED TECHNOLOGY

SOLUTION FOR RECYCLE/REUSE

We incorporate the advanced technology in all our water treatment plants, which consists of pretreatment plants viz plate clarifiers, dissolved air floatation systems, besides the commonly used multi grade filters, activated carbon filters.

Latest technology adopted in our water softeners, demineralizing plants and polisher units.

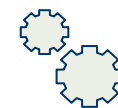

- WATER TESTING
- DESIGN & ENGINEERING
- FABRICATION
- INSTALLATION AND COMMISSIONING
- OPERATION AND MAINTANANCE
- WATER TREATMENT CHEMICAL SUPPLY
- OIL SPILL KIT
- PNEUMATIC EQUIPMENT
- PUMPS, FILTERS AND OTHER SPARES SUPPLY

Protect your water

From pollutions and all type of hazards

NWT provides total end-to-end solutions for water & wastewater management

O & M

- Revamping of existing plants
- Servicing and repairing of existing equipment
- Worker supply for operating plants
- Cleaning and Chemical dosing – Sump, Overhead tanks and civil tanks.

AUTOMATION

Neutro Water Tech provides effective automation systems to control the process as per client's requirement. Automation ensures a high quality treatment process, reduces labor-intensity for easier management and improves system efficiency with the least resources.

ENGINEERING PREPARATIONS

Our process engineering capabilities in preparation of

- Process Flow diagram
- Piping and instrumentation diagram (P&ID)
- Line and Valve list
- Utility consumption schedule

OUR SERVICE

Neutro Water tech serves the following major industries and municipal sectors

- Chemical Industry
- Petroleum Refining
- Petrochemicals
- Paper and Pulp industry
- Cement Industry
- Paint Industry
- Automobile Industry
- Textile and Leather Industry
- Fertilizers
- Distillery
- Oil and gas industry
- Food processing and Dairy Industry
- Apartments
